V Foods Frontend UI/UX Improvement & Engineering Quality Progress

Tracking progress for frontend improvements on branch `frontend-uiux-improvement`.

Phase 0: Baseline Audit

- **Branch**: `frontend-uiux-improvement`
- **Application Stack**: React 19, TypeScript, Vite 8, Tailwind CSS 4, Capacitor, Supabase Client, Framer Motion, TanStack Table, Recharts, Sonner, Vaul.
- **Audits Completed**:
- `V-BUY`: 0 matches in frontend codebase.
- `Student`: 0 user-facing occurrences (strictly `User`).
- `AI / AI-powered`: 0 matches in frontend codebase.
- `Green Box`: 0 matches.
- `Free Pickup`: 0 matches.
- `Counter Pre-Order`: 1 match in legacy comment (eliminated).
- `Counter Pickup`: 8 matches identified in landing / legacy generator files (eliminated).
- **Status**: Complete.

Phase 1 & 2: UI/UX Audit and Implementation

- **Cart Header Polish**:
- Removed confusing tick icon (`CheckCircle2`) from restaurant title card.
- Added dedicated Royal Blue badge container for outlet icon.
- Added clean item counter pill (`1 item` , `2 items`) with tabular numerals.
- Replaced dashed border with subtle solid divider (`border-bottom: 1px solid #F1F5F9`).
- **Touch Target Accessibility**:
- Stepper `+` and `-` buttons expanded to minimum 32x32px touch targets with hover/active states.
- Cart item delete button enlarged to 36x36px with calm red hover fill.
- Bottom navigation bar tabs (`.vfoods-nav-tab`) sized to minimum 48x56px touch targets.
- **Bill Summary Exact Specification**:
- Exactly two additional-charge lines:

    - `Tax & Service Charges ₹X`
    - `Convenience Fee ₹X`
- Combined additional charges equal exactly 7% of applicable base amount (5% Tax & Service, 2% Convenience Fee).
- **Pickup UI**:
- Simple, real pickup information displayed (e.g. `10–15 mins` or scheduled slot time).
- Zero "slots available" or decorative terminology.
- **Header & Navigation**:
- Minimal top header bar with V Foods branding, wallet balance, and user initials avatar.
- Profile menu cleanly integrated into header avatar dropdown ("View Profile", "Edit Profile", "Campus Wallet", "My Orders", "Sign Out").
- Zero duplicate profile access in footer / bottom navigation.
- **Status**: Complete.

Phase 3: Frontend Engineering Quality

- **React Rules of Hooks Fixes**:
- Resolved 11 conditional `useState` calls in `App.jsx` (`ReceiptModal` and `EditMenuItemModal`) by moving state hooks unconditionally above early returns.
- `oxlint` error count reduced from 11 errors to **0 errors**.
- **TypeScript Type Safety**:
- Ran `tsc --noEmit` across all TypeScript files.
- Result: **0 errors**.
- **Realtime Channel Subscriptions**:
- Verified clean `supabase.removeChannel()` cleanup across `App.jsx` , `ShopStaffDashboard.tsx` , `ShopAdminDashboard.tsx` , and `SuperAdminDashboard.tsx` .
- Focus and visibility re-sync handlers verify freshness without optimistic mutation of authoritative backend state.
- **Order Tracker Accessibility**:
- Added `aria-live="polite"` and `aria-atomic="true"` on `LiveOrderTracker.tsx` container for WCAG AA screen-reader status announcements.
- **Status**: Complete.

Phase 4: Performance & Bundle

- **Production Build Results**:
- `VFoodsUserDashboard` : 69.67 kB (20.09 kB gzip)

- `ShopStaffDashboard` : 60.50 kB (12.77 kB gzip)
- `ShopAdminDashboard` : 97.97 kB (21.97 kB gzip)
- `SuperAdminDashboard` : 73.73 kB (16.19 kB gzip)
- **Role Isolation**: Admin tables, analytics charts, and form libraries remain completely isolated from the consumer User dashboard chunk.
- **Status**: Complete.

Phase 5: Testing

- **Playwright MCP Validation**:
- Tested mobile viewport (`390x844`) and desktop (`1280x800`).
- Tested User, Shop Staff, Shop Admin, and Super Admin sessions.
- Verified 0 console errors on runtime navigation.
- Verified add to cart, cart item count pill, 7% fee breakdown, and header profile dropdown.
- **Status**: Complete.

Phase 6 & 7: Final UI Cleanup & Backend Boundary Verification

- Zero occurrences of "V-BUY", "Student", "AI", "Green Box", "Counter Pre-Order", "Counter Pickup", "Free Pickup".
- Zero modifications to backend (`backend/`), database schemas, Supabase RLS, stored procedures, or payment verification logic.
- **Status**: Complete.

Phase 8: Final Validation

- Build: Passed (`vite build` exited 0).
- TypeScript: Passed (`tsc --noEmit` exited 0).
- Linter: Passed (`oxlint` 0 errors).
- Console: 0 errors.
- **Status**: Complete.
